

IDES'22

FLUORESCENCE (AUTO-FLUORESCENCE AND ICG):
TOWARDS ZERO PERMANENT HYPOPARATHYROIDISM

III INTERNATIONAL
DEBATES ON
ENDOCRINE SURGERY

16-17 JUNE 2022
BARCELONA

Organized by

Dear All:

After the mandatory stop due to COVID-19 pandemics, IDES'22 is coming back!

Since 2016, when we introduced ICG Fluorescence for the first time in Spain, many publications have been reported and a lot of evidence has been achieved in this field.

Because of the great experience we all have got in the last five years, maybe it is the time to meet us again to share all the knowledge and protocols developed to date and see if we are on the right way to achieve “zero permanent hypoparathyroidism”.

As usually at IDES, we will combine experts' lectures, live surgeries -where you could see different devices and systems to identify and preserve parathyroid glands - and panels where the discussants will push our invited guests to do their best to update us in the state of the art.

A panel of well-known guests will share with us their expertise to help us to reduce post-thyroidectomy hypoparathyroidism episodes.

I would appreciate if you could consider the Course enough interesting to attend it spending a couple of days, or even the weekend, to enjoy the last days of June in Barcelona.

Take care!

Looking forward to meeting you,
Best,

Pablo Moreno

IDES'22

IV INTERNATIONAL DEBATES ON ENDOCRINE SURGERY

Fluorescence (Auto-Fluorescence and ICG): State of the art and Clinical Evidence – Towards Zero permanent hypoparathyroidism?

Conventional open thyroidectomy vs remote approaches
June 16th – 17th 2022

THURSDAY 16TH

CONVENTIONAL OPEN THYROIDECTOMY

08:00 REGISTRATION (FRONT DESK)

08:30-09:30 WELCOME AND INTRODUCTION

AUDITORIUM

Introduction

Pablo Moreno

Is it possible to achieve ZERO Permanent Hypoparathyroidism?
And how?

Quan-Yan Duh

09:30-14:00 LIVE SURGERY

Moderators: Quan-Yan Duh and Özer Makay

09:30-14:00 Auto-Fluorescence (A-F)

OR-8

Presentation of Surgical Case

Mireia Pascua

Case 1: Total thyroidectomy

Frederic Triponez, Jordi Vidal
and Mireria Pascua

COFFEE BREAK

Presentation of Surgical Case

Mireia Pascua

Case 2: Total thyroidectomy

F Benmiloud, J Vidal and M Pascua

09:30-14:00 **Fluorescence (ICG)**

OR-22

Presentation of Surgical Case

Mireia Pascua

Case 1: Total thyroidectomy

Pablo Moreno, Arantxa García Barrasa

COFFEE BREAK

Presentation of Surgical Case

Mireia Pascua

Case 2: Total thyroidectomy

Pablo Moreno, Arantxa García Barrasa, Jose Luis Muñoz

14:00-15:00 **LUNCH**

15:00-19:45 **SCIENTIFIC SESSIONS**

AUDITORIUM

15:00-16:20 **Panel 1 Auto-Fluorescence**

Chairs: Quan-Yan Duh and Özer Makay

Lecture 1: Why Auto-Fluorescence (A-F)?

Frederic Triponez

Lecture 2: Auto- Fluorescence evidence

Fares Benmiloud

Discussion

16:20-16:40 **COFFEE BREAK**

16:40-18:00 **Panel 2 Fluorescence ICG**

Chairs: Quan-Yan Duh and Özer Makay

Lecture 3: Angiography-guided Thyroidectomy. Results

Pablo Moreno

Lecture 4: Angiography and Surgery. Results

Fares Benmiloud

Discussion

18:00-19:10 Panel 3 How to predict postoperative PG function?

Chairs: Quan-Yan Duh and Özer Makay

Lecture 5: ICG vs PTH. Feasibility of ICG score

Pablo Moreno

Lecture 6: ICG quantification

Schelto Kruijff

Discussion

19:10-19:45 ICG and Hyperparathyroidism

Chairs: Özer Makay and José Luis Muñoz

Lecture 7: Role of A-F and ICG in Hyperparathyroidism.

Evidence

Marco Demarchi

Discussion

FRIDAY 17TH

REMOTE THYROIDECTOMY

08:00 REGISTRATION (FRONT DESK)

08:30-09:00 USE OF AF AND ICG IN REMOTE THYROIDECTOMY

AUDITORIUM

Angkoon Anuwong

09:05-11:00 LIVE SURGERY: TOETVA

OR-8

Moderator: Quan-Yan Duh and Özer Makay

Presentation of Surgical Case

Mireia Pascua

Case 1: Lobectomy

Angkoon Anuwong and Jordi Vidal

11:00-11:30 COFFEE BREAK

11:30-12:45
AUDITORIUM

**PANEL 4 FLUORESCENCE & REMOTE THYROIDECTOMY
(video-session)**

Chairs: Quan-Yan Duh and Özer Makay

Fluorescence in TOETVA I

Jordi Vidal

Fluorescence in TOETVA II

Angkoon Anuwong

Fluorescence in BABA

Enrique Mercader

Discussion: Are parathyroid glands safe in remote approaches? Does ICG Help? Same help as in open Thyroidectomy?

Panelists: Angkoon Anuwong, Fares Benmiloud, Schelto Kruijff, Enrique Mercader, Pablo Moreno, Frederic Triponez and Jordi Vidal

12:45-13:00

AF AND ICG TAKE HOME MESSAGES. STATE OF THE ART
Quan-Yan Du

13:00-13:15

FAREWELL AND GLASS OF CAVA

COURSE DIRECTOR

Pablo Moreno Llorente.

ORGANIZING COMMITTEE

Arantxa García Barrasa.
Mireia Pascua Solé.

GUESTS

Angkoon Anuwong. Police Hospital, Bangkok
Fares Benmiloud. Hôpital Européen Marseille, France
Quan-Yan Duh. UCSF-Mount Zion, California
Frederic Triponez. Hôpitaux Universitaires, Genève, Switzerland
Schelto Kruijff. UMCG, Groningen, the Netherlands
Marco Demarchi. Hôpitaux Universitaires, Genève, Switzerland
Özer Makay. Ege University, Turkey
José Luis Muñoz. HU La Princesa, Madrid
Enrique Mercader. HU Gregorio Marañón, Madrid
Jordi Vidal Fortuny. Swiss Medical Network, Switzerland

CONGRESS ORGANIZER
