BARCELONA**

The XVIII international Bariatric and Metabolic Surgery Course is a challenge for our unit.

Our long experience in organizing theoretical-practical courses guarantees a high-level training program that includes multiple live surgeries with conferences and discussion panels led by national and international experts in Bariatric and Metabolic Surgery.

The XVIII Course will be held at the Bellvitge University Hospital on November 28-29, 2022 and constitutes a Phase III course of the SECO Training Program.

The main objective of this course is to discuss the consensus of surgical indications, new techniques and tactics in bariatric surgery. The focus falls on revisional surgery with special emphasis on hypoabsorptive surgeries, as a second stage of restrictive techniques and as an indication in complex patients with weight regain and/or persistent comorbidities.

■ Local Faculties:

■ **Dr Amador García Ruiz de Gordejuela.** Vall d'Hebrón University Hospital, Barcelona

■ **Dr Ramón Vilallonga.** Vall d'Hebrón University Hospital, Barcelona

■ **Dra Ainitze Ibarzabal.** Clinic University Hospital, Barcelona

■ **Dra Noelia Pérez-Romero.** Sant Pau University Hospital, Barcelona

■ **Dr Jordi Tarascó.** Germans Trías y Pujol Hospital, Badalona

■ **Dra Marta París.** Sant Joan de Reus University Hospital, Tarragona

■ **Dra Anna Casajoana.** Mar University Hospital, Barcelona

■ **Dr Javier Osorio.** Bellvitge University Hospital, Barcelona

Program

Monday 28 November 2022

8,00 - 8,15

Presentation: Dr. Arcocha, Dr. Biondo, Dr. Osorio

8,15 – 11,00

GERD, the Achilles' heel of bariatric surgery

Moderators: Antonio Torres and Javier Osorio

Before live surgeries:

- Montpellier's experience with Nissen Sleeve: David Nocca
- Montpellier's consensus on GERD: David Nocca
- GERD after Sleeve gastrectomy: Noelia Pérez-Romero

Technical comment on live surgeries:

- Is GERD always indication for RYGBP?
- Does oesophageal motility disorders have to be ruled out?
- Hiatoplasties and so on: The future vs. Please stop doing this

8,15 – 11,00

Live surgeries:

Nissen-Sleeve - David Nocca

SG to RYGBP - Bruno Dillemans

11,00 – 11,30

Coffee break

11,30 – 13,40

The failed Sleeve: A growing problem

Moderators: Mario Nora and Amador Garcia R. Gordejuela

Before live surgeries:

- Management of weight regain after SG: Giuseppe Navarra
- Bellvitge's experience with revisional DS and SADI-S: Lucía Sobrino

Technical comment on live surgeries:

- SADI vs DS as rescue for failed primary procedures
- How do we report and compare micronutrient deficiencies?

Interactive quiz

11,30-13,40

Live surgeries:

SG to DS - Javier Osorio

SG to SADI-S - Andrés Sánchez Pernaute

13,40 – 14,30

The "perfect algorithm" for revisional surgery after failed SG

Moderators: Antonio Iannelli and Claudio Lazzara

Expert Committee Discussion

Program

Monday 28 November 2022

14,30 – 15,30 **Lunch**

15,30 – 18,15 **The failed Gastric Bypass: A challenging problem**

Moderators: Nicola Di Lorenzo and Ainitze Ibarzabal

Before live surgeries:

- Bruges' experience in revisional RYBPG: Bruno Dillemans

Technical comment on live surgeries:

- When is a bad result the patient's fault?

- When should we stop revising?

- More restrictive or more malabsorptive?

Interactive quiz

15,30 – 18,15

Live surgeries:

Revisional RYGBP - Bruno Dillemans **Revisional RYGBP** - Mario Nora

18,15 – 19,00

Discussing the “perfect algorithm” for revisional RYBPG

Moderators: Giuseppe Navarra and Carlota Tuero

Expert Committee Discussion

Interactive quiz

19,00- 19,30

Beyond “surgery vs. medical treatment”: better together

Moderators: Núria Vilarrasa and Ramon Vilallonga

Speakers: Josep Vidal and Javier Osorio

Program

Tuesday 29 November 2022

8,15 – 11,00

SADI-S vs. RYGBP in grade III obesity: The next duel

Moderators: Guiseppe Navarra and Antonio Torres

Before live surgeries:

- SADI-S: Andrés Sánchez-Pernaute
- RYGBP: Ainitze Ibarzábal
- How long should the biliopancreatic limb be in RYGBP: Marta París

Technical comment on live surgeries:

- Circular vs Linear vs Manual Gastrojejunostomy in RYGBP
- How long should the common limb be in SADI-S?
- Manual vs. mechanic duodeno-ileal anastomosis in SADI-S

8,15 – 11,00

Live surgeries:

LRYGB - Antonio Iannelli

SADI-S - Amador García R. de Gordejuela

11,00 – 11,15

Coffee break

11,15 – 11,45

Discussing the “perfect algorithm” for primary surgery indication

Moderators: Antonio Torres and Lucia Sobrino

Expert Committee Discussion

11,45 – 12,00

Evidence-based and practical recommendations for perioperative care: Thromboprophylaxis, analgesia and outpatient management

Anna Casajoana

12,00 – 13,30

Robotic Surgery: Better for the patient or just for the surgeon?

Moderators: Nicola di Lorenzo and Javier Osorio

Technical comment on live surgeries:

- Pure robotic or Laparoscopic-assisted?
- Technical advantages in revisional surgery
- Benefits in superobese patients
- Tips and Tricks

12,00 – 13,30

Live surgeries:

Robotic Revisional Surgery - Jordi Tarascó and Pau Moreno

Robotic Revisional Surgery - Ramón Vilallonga and Amador García

13,30- 13:45

Closure of the course
