

Environmental Technician

Infrastructure and General Services Department · Hospital Universitari de Bellvitge

Hospital Universitari de Bellvitge is a high-complexity hospital with areas of excellence in patient care, biomedical research, innovation and health sciences education, with a team of more than 5,000 professionals.

Join the Infrastructure and General Services Department. We are looking for an Environmental Technician to design, implement and monitor the centre's environmental management system, contributing to the continuous improvement of its environmental performance.

What will you do?

- › Drive and monitor the hospital's environmental management system (ISO 14001 and EMAS), contributing to the continuous improvement of its environmental performance.
- › Provide advice on environmental matters and energy efficiency, taking part in defining actions and improvement proposals.
- › Promote responsible management of waste and natural resources through monitoring indicators, environmental checks and savings plans.

Requirements

- › University degree in Environmental Science, Environmental Engineering or equivalent.
- › C1 certificate in Catalan.
- › 2 years' experience in similar roles.

Desirable

- › Specific training as an energy efficiency manager.
- › Master's or postgraduate degree in environment or environmental management systems.
- › Skills: service orientation, teamwork, communication, flexibility and problem-solving ability.

What we offer

- › Joining high-impact projects at a leading university hospital.
- › A multidisciplinary environment with real opportunities for learning and professional development.
- › Monday to Friday, 8am to 3pm, plus one afternoon a week. 1,599 hours a year, 22 working days of holiday and 6 personal days.

Pay

- › Between €30.666 and €37.627 gross per year, depending on qualification, plus objectives-based pay.

How to apply

- › By email:
- › seleccio@bellvitgehospital.cat
- › Stating **"Environment"** in the subject line of the email.
